PROFESSIONAL SUMMARY

Results-driven Software Engineer with a strong foundation in Computer Science and Database Administration. Experienced in designing, developing, and deploying high-performance web applications using Next.js, modern serverless/relational databases, React, Astro (v5), TypeScript, and TailwindCSS (v4). Adept at building robust, secured backend systems with Supabase (SSR, Auth, PostgreSQL) and relational databases. Proven track record of optimizing database performance, implementing role-based access controls, and translating complex business logic into user-centric interfaces.

TECHNICAL SKILLS

- **Languages & Core:** JavaScript (ES6+), TypeScript, SQL (PostgreSQL, MySQL), Python, Java, HTML5, CSS3
- **Frameworks & Libraries:** Astro v5, React 19, Node.js, React Native (Familiar), Node.js, Express.js
- **Databases & Cloud:** Supabase (Auth, Database, SSR, Storage), PostgreSQL, Firebase, Oracle DBMS, AWS (EC2, S3 basics)
- **Design & UI:** Figma, Visual Design, Responsive UI, TailwindCSS v4, Vector Graphics
- **Tools & Operations:** Git, GitHub, Vercel, Serverless Functions, Database Indexing & Query Tuning, API Integration (Paystack, Stripe), Agile/Scrum

TECHNICAL PROJECTS

Box 55 Stays | Full-Stack Hospitality Reservation & Operations Platform

<https://box55enugu.com>

Astro, React, Supabase, Tailwind, Paystack

Jan 2026 – May 2026

- Developed a high-performance reservation platform for an executive stay provider using Astro v5, React 19, and TailwindCSS v4, yielding fast rendering and responsive layouts.
- Implemented check-in/out logic, a custom image gallery lightbox, and price calculators with long-stay discounts, integrating Paystack API for payments.
- Programmed secure server-side authentication with Supabase SSR, creating a role-based access control (RBAC) system for CEO, Manager, and Staff profiles.
- Engineered serverless API routes with custom IP and user rate-limiting middleware, utilizing the Supabase service role client to prevent endpoint abuse.
- Designed an operations dashboard displaying daily metrics (revenue, occupancy rate, check-ins) and automated PostgreSQL database activity logs for administrative audit trails.

PROFESSIONAL EXPERIENCE

Database Administrator

International Hearing Center Nigeria

Feb 2023 – Present

- **Database Management:** Managed relational databases (SQL), implementing query optimization and index strategies to reduce database response times.

- **Infrastructure & Security:** Scheduled automated backups, verified disaster recovery drills, and enforced security compliance protocols to protect sensitive patient records.
- **Internal Web Support:** Troubleshooted API connections, user authentication workflows, and maintained patient-facing web interfaces.
- **Cross-Functional Collaboration:** Partnered with clinical and management teams to design custom dashboards for operational and business analytics.

Property Management Intern / *COPEN Group*

Jul 2018 – Jul 2021

- **Visual Design & Assets:** Designed marketing flyers, brochures, and digital collateral for real estate properties using vector design tools (Figma/Illustrator).
- **IT Consulting & Solutions:** Assisted in resolving IT hardware/software issues and maintained local office database records.
- **Digital Listing Management:** Managed real estate property listings across web portals, optimizing formatting and visual quality to increase inbound lead inquiries.

EDUCATION

Bachelor of Science in Computer Science / *Bells University of Technology, Ogun State, Nigeria*

Sep 2015 – Jun 2021

LANGUAGES

-
- English (Native Speaker)
